A closer look at your agentic loops

537 initial prompts · 95 conversations · Oct 31 – Nov 11, 2026

493
completed turns

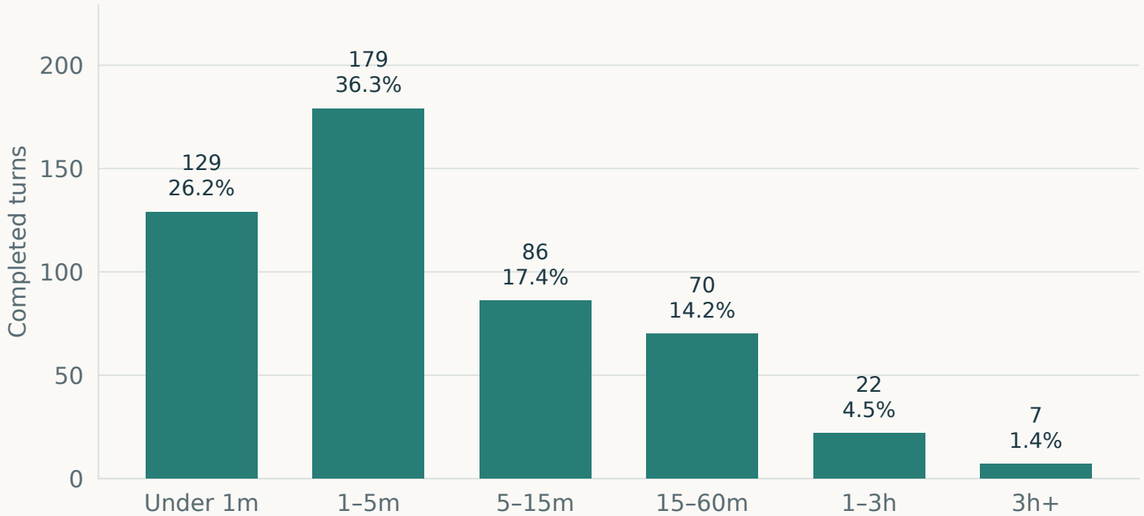

2m 50s
median completed duration

38m 06s
90th percentile duration

6h 00m
longest completed loop

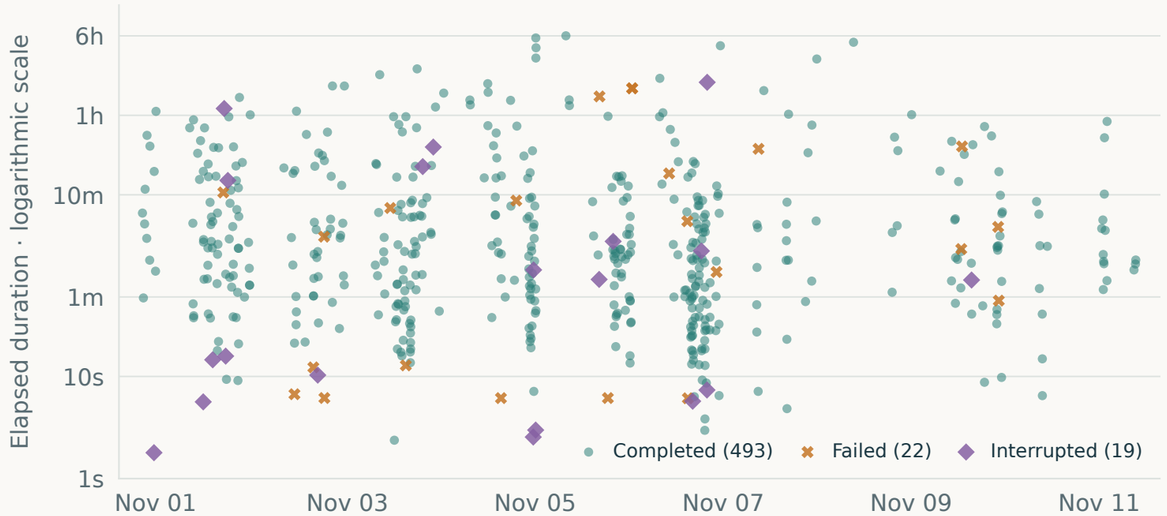

1 How long do loops last?

493 completed turns · counts in unequal duration bands

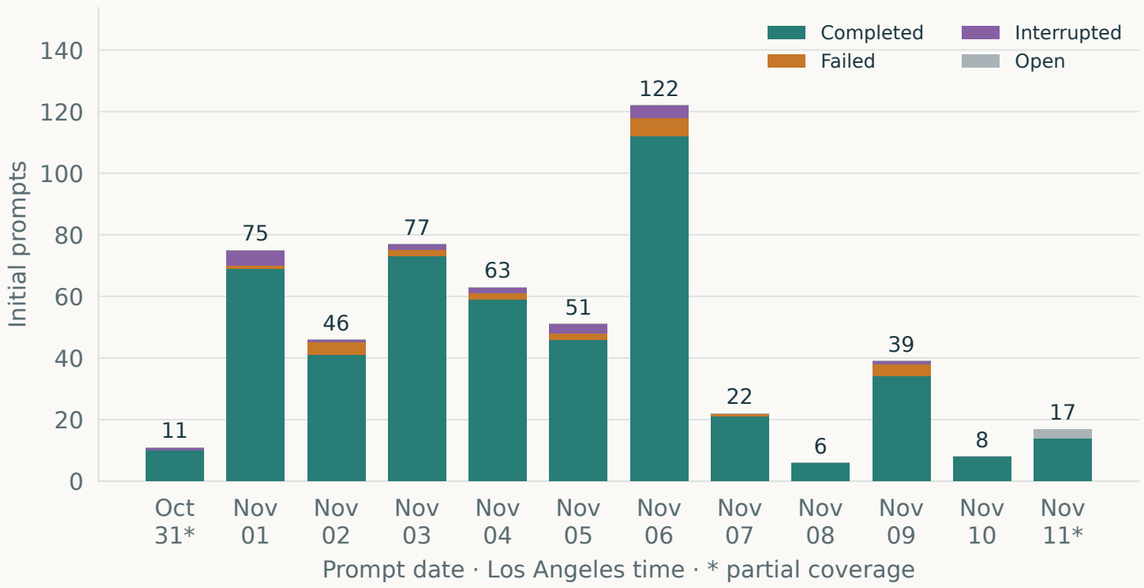

2 Each loop over time

One point per ended turn · 3 open turns have no duration

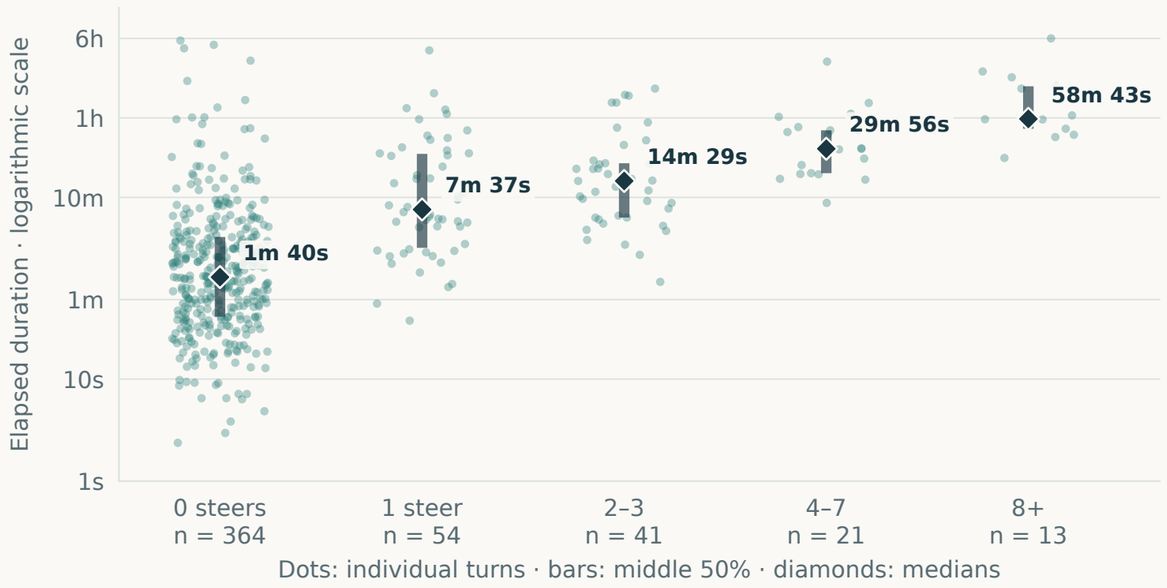

3 How many prompts each day?

Initial prompts only · first and last dates have partial coverage

4 Longer loops often have more steers

Completed turns · association, not evidence that steers cause longer work

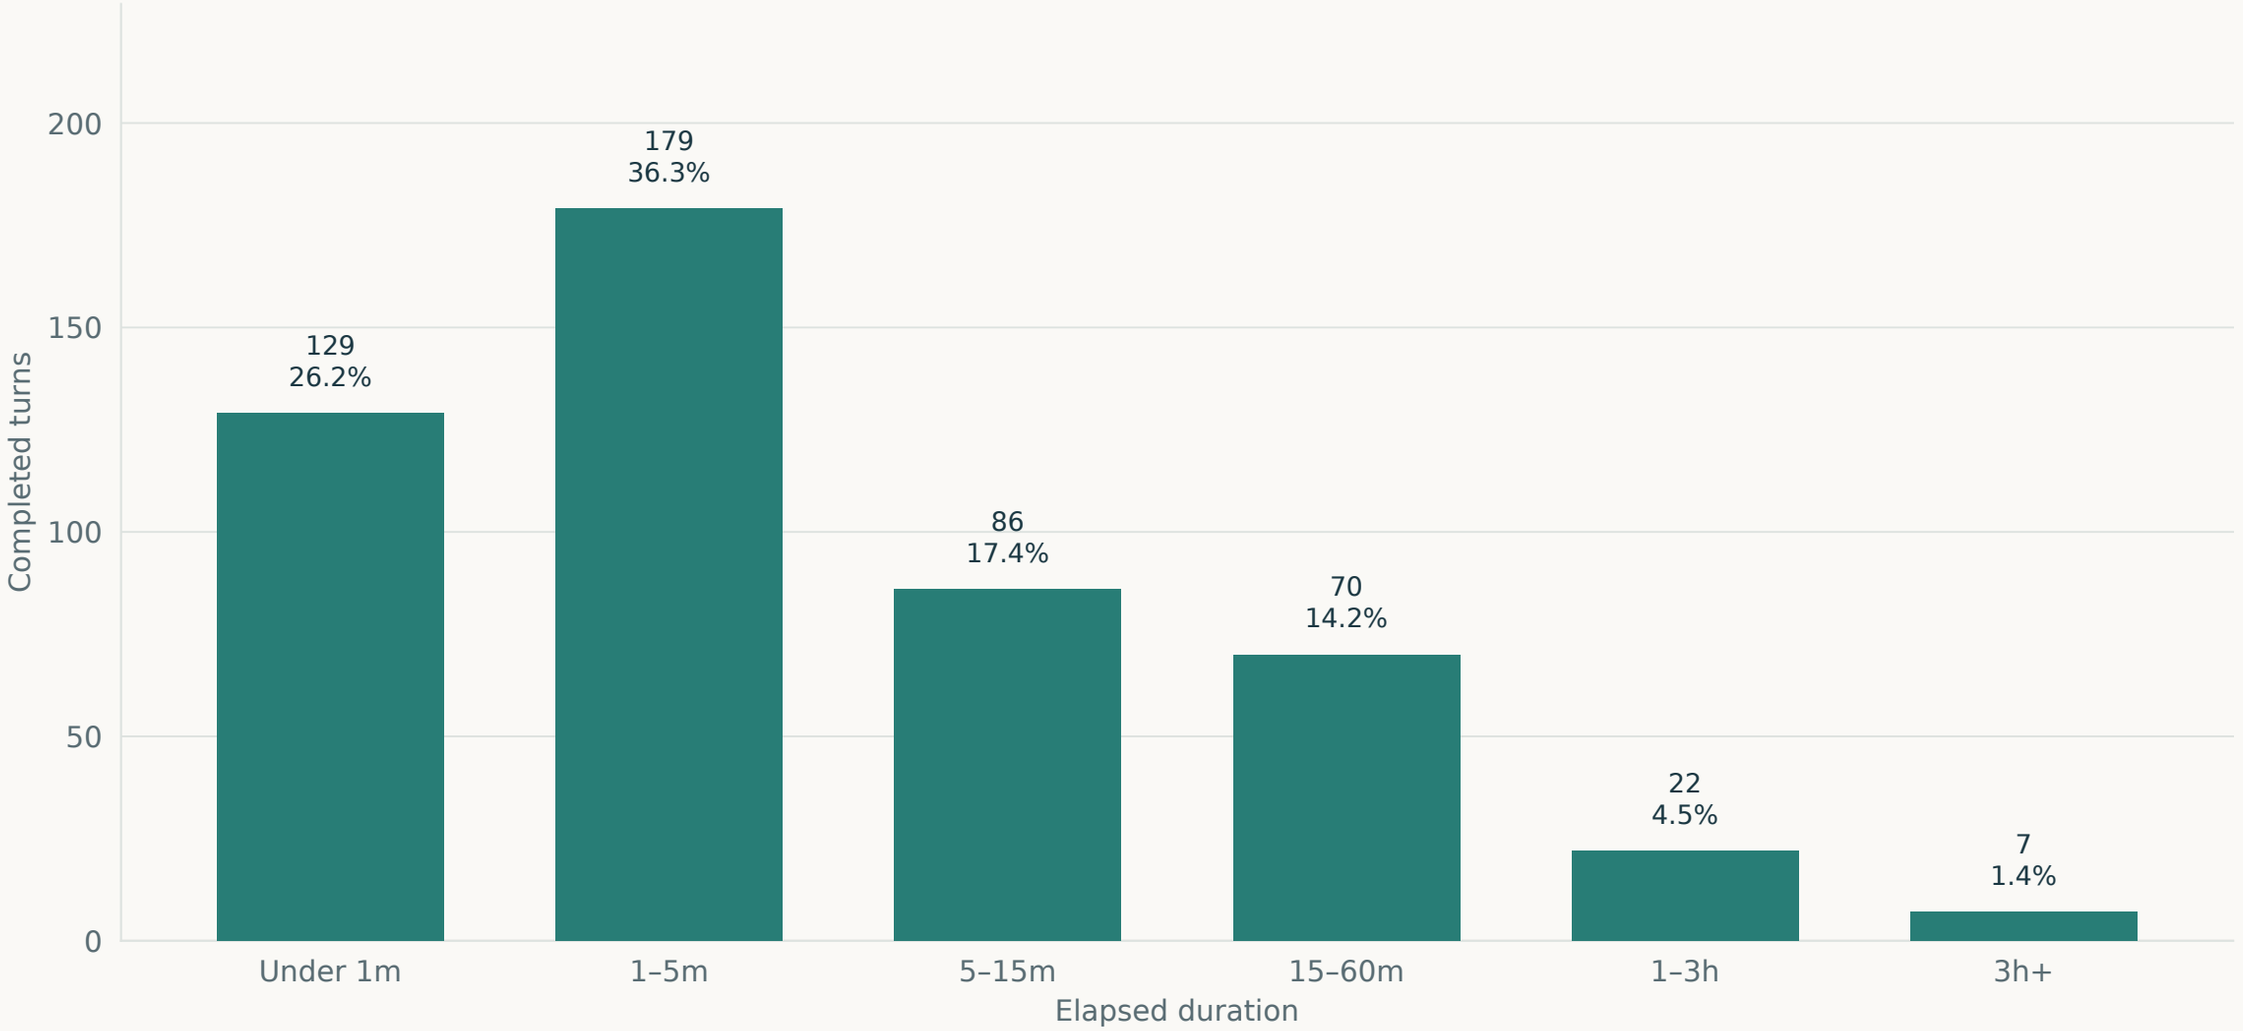

Elapsed time includes tools, waits and steers; simultaneous turns can overlap. Completed is a log outcome, not a quality rating.

Saved dataset · captured Nov 11, 2026 at 09:28 PST · open turns excluded from duration charts
